

LED Drape Lite® 1200

Predecessor: 018-333

019-333

LEDPLR-6020-230VWH-WW

Description

Product description

Drape Lite® is a well-known favourite for indoor light curtains, with many varied uses. The main support cable, to which the individual light strings are attached at an angle of 90°, is 2m long. With the aid of the patented Quick-Fix® System, several main support cables can be connected to one another without problems - this can be 3-10 units, according to the exact product chosen. Individual light curtains can be obtained in the lengths 1.5m, 3m and 6m, which, again dependent on model, shine with 300-1200 patented LED points of light. The LEDs are attached to the light strings at 15cm intervals. Each string can be individually replaced.

Effects

Myriad tiny points of light give the light curtain a smooth look with an elegant, calm and atmospheric effect. The LEDs are available in warm white. Drape Lite®, the professional choice for light curtains, is perfectly suited for all surface areas, from small to large. In addition, the light curtain can be attached to a variety of frames, whilst multiple strings, bundled together, are a first-class decoration for places like entrance doors and windows. Using cable ties to attach individual strings at different heights creates a dynamic display.

Dimensions

 LED warm white (1200 LED)

 white

Size (L-W-H): 200 x 600 x 0 cm

Number of segments: 20

Lamps per segment: 60

Length per segment: 6.00 m

Watt/segment: 3.5 W

Watt: 70 W, 70 VA

Max. Wattage: 420 W

Operating voltage: 220-240 V AC 50-60Hz

Operating mode: Power supply

Connectable: yes

Number of connectable: 6

QuickFix® connection system
