

LED Decro String Lite 234

Predecessor: 028-145
029-145

Description

Product description

Our LED Decro String Lite is available in the length of 4m and 12m. LED Glamour Bouquet Lite features points of light fixed directly to the light cable. By means of the design protected QuickFix™ system, several chains may be connected together with no problems. The power supply for all the 36V light strings to be connected is provided by a central transformer. The number of lights which may be connected up is governed both by the rating of the transformer selected and the maximum length of a decoration string. LED Decro String Lite comes with 78 or 234 shining points of LED light according to product.

Decorations solutions

LED Decro String Lite with their myriad tiny points of light give the observer a lively, fun and atmospheric impression. This professional light is perfectly suited for window frames and decorations. The LEDs are available in the colors brilliant white and warm white.
