

QuickFix™ Low Voltage Controller DMX

202-205

Description

QuickFix™ Low Voltage Controller DMX

With the QuickFix™ Low Voltage Controller (1dmx/4dmx) the normally static StringLite or Dual String Lite light chains (QuickFix™ Low Voltage+) can be pulsed, dimmed or even converted into a sound-to-light animation.

These effects can be achieved with a standard DMX controller such as MK Showtime Pro or Easy. Each output is individually controllable via the DMX512-A protocol.

The QuickFix™ Low Voltage Controller is compatible with the following power supplies: 35W, 70W, 90W, 120W oder 200W

Product data

Size (L-W-H): 16 x 5.5 x 8 cm
 Max. Wattage: 200 W
 Mains voltage: 36 V DC
 Operating voltage: 36 V DC
 Operating mode: Power supply
 Connectable: yes

Packaging - Product

Type of Packaging: Poly bag
 EAN-Code: 9120081797659
 Weight: 1 kg
 Produkts/Packaging: 1

Packaging - Inner Box

Type of Packaging: White carton
 EAN-Code: 9120081797666

Packaging - Shipping

Type of Packaging: Brown carton
 EAN-Code: 9120081797673
